

Science Activity

At Watling Academy, one of our aims is to look at sustainability in the context of Milton Keynes.

This year the Parks Trust have asked for help in maintaining the lovely woodlands we have in our city.

This year they are encouraging people to collect acorns and grow them in pots to be planted back into the woods in the future. This would also make a great Science project as we will be looking at seeds and growth within the context of our curriculum. We would love to know how you get on when you arrive in September.

Look at the link to the Parks Trust below.

<https://www.theparkstrust.com/get-involved/outdoor-learning/at-home-activities/acorn-collection/>

There is also a video with tips on this link

<https://youtu.be/L8WqinJumV0>

Hope you have fun (safely) and that from tiny acorns mighty oak trees grow.

You could create a photo journal of the progress over the following months.
